MANY HOURS OF FAITHFUL WORK

Before The Body of Ezra Robertson, Drowned Saturday, Was Recovered.

FOUND BY WILL BARKMAN

Within Sixty Feet of Where Accident Occurred.—In Good Condition.

After many hours of heart rending suspense for the parents, the body of Ezra Robertson, the boy who was drowned west of Brownstown Saturday evening, was recovered about 2 o'clock Tuesday afternoon.

It was found by Will Barkman while he was dragging the bayou on which the boy was boating with his uncle at the time he fell into the water. The body was in deep water and within fifty or sixty feet of where the accident occurred.

The river bed had for one hundred feet from the place where young Robertson sank, been dragged repeatedly since Saturday evening but without success until Tuesday afternoon. The body was found to be in good condition, much better than had been expected, which afforded relief to the family and friends.

Though not as many persons were at work around the bayou and along the main channel of the river as during the first two days of the search quite a number were still at work, but they were almost discouraged. Dynamiting along the river had been engaged in during the day. Barkman who finally found the body had been one of the most faithful and constant workers from the time people hurried to the river at the first alarm. He lives in the neighborhood of the Robertson home. Members of the family feel very grateful for the earnest work of all who aided in the search.

In the boy's coat pocket when found was his school report card of which he had been very proud. He was one of those who would have graduated from the school in district No. 3 in Brownstown township, Miss Doerr being the teacher. He was recognized as one of the brightest pupils in the school and was liked by all the other pupils. He was twelve years, six months and eighteen days old. He was an only son of Mr. and Mrs. Dunham Robertson. A sister survives him.

The funeral services were held at two o'clock today at the residence by Rev. Mr. Milligan.

THE Rexall STORE

ANOTHER STOCK

Of Furniture Bought By The Gold Mine.

The Gold Mine Tuesday evening closed a deal for a second stock of furniture, buying the stock of the William Willman store on South Chestnut street and taking possession at once. Part of the stock purchased this week from F. J. Voss is being moved to the Willman building and the Gold Mine will conduct a furniture sale there until the third floor of their building is in readiness for use. The combined stocks will then be moved there, the firm, as stated Tuesday, having decided to add this new department to their business. Mr. McAdams of Scottsburg will be in charge of the firm's furniture business. He has been connected with an establishment at Scottsburg a number of years and comes highly recommended. Mr. Willman will assist Mr. McAdams for the present at least. Mr. Willman, who has long been in business here, sold his building a short time ago and announced that he would retire from the business. The deal for the Willman stock was made by E. C. Bollinger as agent.

Newspaper Errors.

Henry W. Grady, the gifted editor of the Atlanta Constitution, made it a rule not to correct any errors in his paper, whether made through misinformation or by typographical inaccuracy. He maintained that the public lost confidence in a newspaper that admitted it was not infallible. Through an error at one time a citizen of Atlanta was reported dead by the Constitution. He called at the newspaper office and complained that his business was injured as his patrons no longer looked him up, thinking him dead, and asked for a correction. "I am very sorry," said Mr. Grady, "but the Constitution never makes a correction. The best we can do for you is to put you in the birth column and start you over again."

Errors sometimes occur in the rush of getting out a daily paper, though they are few indeed, and generally are humorous. For instance the Suffolk Weekly Times gravely announces that "On account of the over-crowded condition of our columns this week the births and deaths are unavoidably postponed."

The ambition of a newspaper is to be accurate, and the paper attempting deception for political purposes soon becomes known and loses its influence. As a rule papers are reliable and accurate, and the man who "never believes anything he sees in the newspaper," never believes anything his neighbors tell him and he doesn't have to, for he knows it already.

Easter Party.

Mrs. Harry Bobb gave an Easter party last night for the members of the Devoir Society at her home on West Fifth street, and the evening was most delightfully enjoyed by all.

A number of clever contests were conducted in keeping with Easter. Those who worked hard in the "rabbit hunt" were amply rewarded by the finding of small candy rabbits which were concealed about the room. During the evening lunch was served.

THE PASSOVER

Jewish Holiday Week Began Monday Evening With the Seder.

Sundown Monday evening marked the beginning of the Jewish Easter week, more familiarly known as the Feast of Passover. The festival week will extend until sundown next Monday, and Monday evening today and next Monday are holidays. With the orthodox Jews, the Feast of Passover will extend over a period of eight days, and will end a day later.

The Seder, the family service, which officially ushers in the Feast of Passover, is one of the most interesting features of the week's celebration, and will be observed in every Jewish home between the hours of 7:30 and 10:30 and will be repeated this evening.

During the seven or eight days of Passover (Pesach) the Jews will eat matzos, the unleavened bread, instead of the usual leavened bread. Butter or anything made with butter or from butter will not find its way into any of the Jewish homes this week.

Passover is the great independence day of the Jews, as it commemorates their exodus from Egyptian bondage.

Words Often Misspelled.

Charles A. Greathouse, state superintendent of public instruction, in continuing his campaign for better spelling among the teachers in the common schools of Indiana, has issued a list of words commonly misspelled by Hoosier teachers. The list was compiled from the February examination papers, graded in the state superintendent's office. The words follow:

Accurately, adjective, alluvial, business, calendar, canal, can't, control, coastal, committed, copula, complete, contemporary, definite, don't, desert, dependent, environment, fundamental, finally, familiar, group, grammar, guillotine, harbor, humorous, interpret, imitate, infinitive, indicative, intransitive, litter, later, limit, library, lose, loose, mysterious, merely, modified, navigable, narrative, novelist, necessary, orally, occasionally, occurred, phrase, portray, prairie, pronunciation, participle, phenomenon, punctuation, rolling, religious, rhythmic, secede, specimen, separate, separately, speech, sentence, similar, trial, temperament, vegetation, vertical, verb, weather, writer, Hawaii, San Francisco, Rio de Janeiro, Buenos Aires, Porto Rico, Illinois, Appomattox, Alexander, Shakespeare or Shakspere, Elizabethan, Edmund Spenser, Thackeray, Macaulay, Iliad, Scott, Bastile, Macbeth, Edward Gibbon, Fiske, Prescott, Motley, Westminster, Separatists, principal, principle, too, to, two.

The state superintendent said, in giving out the list, that the words were used which were most often misspelled and that "catch" words were eliminated from the list.

APPOINTMENT OF INSPECTORS

For Various Precincts of County Provided For In New Registration Law.

MEN NAMED BY COMMISSIONERS

Clerks To Be Nominated By Party Chairmen.—Other Business Transacted.

The county commissioners at their regular April session this week appointed the inspectors to serve under the new registration law. There will be a registration board in each precinct in the county to be composed of an inspector and two clerks. One of the latter will be nominated by the chairman of the Republican county committee and the other by the Democratic county chairman.

The board will hold sessions in May, September and October. The May session will begin the 9th of that month. The law provides that the polls shall be open for the registration of voters from 5 a. m. until 6 p. m. and until 8 p. m. if voters present themselves for registration every five minutes. The law says that the board shall remain in session for two more days if necessary when so requested by five voters of the precinct. The September and October sessions shall each be for one day.

Each member of the different registration boards are to be paid \$4 a day for their services. The men named by the commissioners for inspectors in the ten precincts of Jackson townships are, F. W. Wesner, Walter McGovern, C. W. Burkart, Charles Vogel, L. Gardiner, A. V. Lawell, Albert Kasting, Henry Bettencrook, Marion Weddell and Alex Davison.

The inspectors in the other townships are: Redding township, Lyman Gruber and Claude Murray.

Vernon, John Nelson, Arthur Broshers and J. G. Offutt.

Carr, George F. Finley and L. A. Henderson.

Owen, J. E. Tanner and J. L. Stillwell.

CONTESTED WILL

Solon Wilcox Heirs Expected To Settle Difficulties.

It was expected at Bedford Tuesday that the Solon Wilcox contested will case would be settled that evening out of court to the satisfaction of all the heirs. The Bedford Mail said:

Preparations for an agreeable settlement have been under way for several days and several of the defendants were in the city today looking after the case. The contest was begun by Mrs. Mary Browning, a daughter of Solon Wilcox, who died a week ago. The daughter was given \$5,000 and four lots in Ft. Ritner. She did not think this amount sufficient and when the will was presented for probate her attorneys, Boruff & Boruff, made objections and delayed the probating of the will. It is understood that in the plans this morning the daughter was to secure about forty per cent. of the estate and had the option of taking the Wilcox home at Ft. Ritner by the payment of a certain sum of money. Martin & Pearson are attorneys for T. W. Hollenbaugh, who was named in the will as executor and who was one of the defendants. Hollenbaugh has been working hard to secure some kind of a compromise between the two sides without a long legal fight. The fortune is said by some to amount to about \$35,000 and that a part of the judgment of \$7,500 is yet to be paid.

Heart to Heart
Talks.

By EDWIN A. NYE.

INGRATITUDE.
"I'm just ashamed of father and mother when we have company. Father will eat with his knife, and he pours his tea out in his saucer. And mother has a habit I simply can't break her of. She blows on her food to cool it."

That was the plaint of a young woman made to her intimate girl friend.

By means of stinting themselves of comforts her parents had kept her in an expensive finishing school for several years until she was graduated.

Now she was ashamed of them.

And they so proud of her!

Of course father and mother ought to be more careful in conforming to good usage; but, you see—

Father and mother are growing a little forgetful in their old days. They would like to make things pleasant for Muriel, and they take very good naturally the hints about table manners.

And they try, but lapse. It is pathetic to note father's consternation when unwittingly he pours his tea out in the saucer to cool it—right when guests are at the table. And once he tried to pour the tea back into the cup, but his old hand trembled, and he spilled it.

It is matter of habit with the old couple.

Mother formed the habit of blowing on her food back in the days when the daughter was at school or the piano and mother had to hurry with the household things.

Those were days of short dinners.

And now?

How should the fond old people know that a fine education would give to their girl ways and manners not theirs? How could they suspect they were putting their daughter above them so that in her fancied superiority she would come to look down upon them?

It fervently is to be hoped they have not discovered!

Educated?

Why, if the girl is really ashamed of her old parents she has not got the A B C of education. Education should make a woman more womanly. It is not designed to put her on a pedestal above her kin.

The ingratitude of the girl!

That father has literally sweat blood to pay the daughter's way at school. That mother has died a hundred times in agony and privation and suspense for the girl who is ashamed of her.

CONFIRMED PROOF.

Residents of Seymour Cannot Doubt
What Has Been Twice Proved.

In gratitude for complete relief from aches and pains of bad backs—from distressing kidney ills—thousands have publicly recommended Doan's Kidney Pills. Residents of Seymour who so testified years ago, now say their cures were permanent. This testimony doubly proves the worth of Doan's Kidney Pills to Seymour kidney sufferers.

Mrs. H. Moritz, 405 E. Fifth St., Seymour, Ind., says: "It gives me great pleasure to confirm all I previously said in praise of Doan's Kidney Pills when I publicly recommended them. This remedy was used by a member of my family and it effected a permanent cure in a case of kidney trouble."

Visible
SignsWell Dressing
Brings Peace
of Mind

By COURTESY LEIGH, San Francisco

IX years ago I overheard the following conversation between two classmates of a western university, who met on a strange campus:

"Why don't you go out?" said the woman.

"I'm too poor to dress well," explained the man.

"Too poor to dress well!" repeated the woman. "Why, I am too poor not to dress well!"

I watched them as they passed out of hearing—the woman erect and radiant in a perfect white linen suit, the man dingy and apologetic in a frayed and shiny reach-me-down of antiquated cut. The woman is now dean in a great college, earning three times the salary of the man. She is still too poor not to dress well.

Our appearance is all most people know of us. Think over our acquaintances. Are not all but a scant half-dozen represented by certain symbols as "tight skirt, loads of false hair," "old man with black skull cap," "pretty complexion and clean shirt waists," "squeaky shoes and a celluloid collar?" The complex mass of traits and talents which might endear or render odious the persons within this outer husk is obscured by these visible signs. Barring onions or blueberry pie, what difference can it make to us whether they dined on baked beans at a cafeteria or singing birds' tongues at the St. Francis? But I have known an estimable man to be refused in marriage because he had warts on his hands, while his too large hat bent the tops of his ears, and a brilliant girl dismissed from a great institution because she persisted in trying to write in a trained skirt.

The good opinion of our fellows we must have or we perish. True, if we are starving we cease to care, but we shall not starve if we take thought and chew. By dint of infinite chewing a very little coarse food will nourish us and the coarser it is and the longer we chew it the more will our facial muscles be developed, our good looks increased, and consequently the approbation of our neighbors. It has been noted in a report of the British government that many weak-chinned youths turn to manly strength and beauty after a few years of masticating hard tack.

The pleasure of eating is transitory; the joy of looking well abides. Power and confidence are donned with clean, becoming, modest garments. As the audacious lady told her bishop, "The consciousness of being well dressed gives a peace of mind that religion never can."

Plea for
Motion
Pictures
in Public
Schools

By HARRY HEISS

Motion pictures are not used as much as they ought to be in public schools and institutions. A motion picture outfit wouldn't cost a very great amount of money to install in every grammar and high school, and once installed the cost of maintaining it would be insignificant.

The getting of proper subjects or films would be an easy matter, especially such subjects as pertain directly to our school work.

The works of almost every great author and poet are now portrayed in motion pictures. Every corner of the world is put before our eyes and we can see the scenery and study the habits, characteristics and manners of peoples of all other lands.

English, ancient and American history is shown with the minutest accuracy.

The lives of great dramatists, musicians, playwrights and tragedians are also put before our eyes.

Industries of every kind, both foreign and domestic, even the complete metamorphosis of useful, interesting and dangerous insects and microbes in microscopic forms, current events and almost everything known to mankind are shown by motion pictures.

On account of the severe censorship most of the films are clean, moral and would not offend even the most refined taste.

More could be taught by pictures in a very short amount of time than could be taught by our greatest professors and teachers in a much longer time.

We don't stop to consider the vast amount of money, time and talent used in making these pictures.

A subject rarely if ever costs less than several thousand dollars to produce and they sometimes run as high as \$100,000, because the best actors obtainable are used to make them, and many very dangerous places are visited.

One Need
Not
Suffer in
Health
Nor Looks

By ANNA K. BLACKBURN

Every question may have two sides, but these sides may not always balance. In this instance my observations lead me to favor "skimping" in clothing rather than eating.

Clothes may be—and are—a very valuable asset in business, but they fail materially when it comes to paying the inevitable doctor bills that follow resultant illness from lack of proper nutrition. They fail also in regaining positions lost through this cause.

Furthermore, since taste and quick-wittedness seem the birthright of the average American girl, she is generally able to present a very pleasing appearance without expending an undue amount of money on her clothes.

She is frequently her own dressmaker and milliner and anyone who has tried it knows what charming effects have sometimes been created from almost nothing.

On the other hand, a woman of limited means must exercise the greatest care in the selection of her meals.

She must plan for plain, nutritious foods and learn to do without the "frilly" dishes so dear to the feminine heart.

Summed up, my solution is this: Eat the most nutritious food your purse permits; select your clothing with an eye to utility as well as style and then take the most scrupulous care of your wardrobe.

The result will be that you will suffer neither in appearance nor health.

But One Course to Secure
True Peace of Mind

SEEK FIRST THE SAVIOR

HERE are three things which greatly disturb the peace of mind of many. Fortunately, these causes of their unhappiness are all covered by definite promises of God. And just in the degree that they trust him to make good those promises will they be relieved of anxiety and made happy.

The first of those disturbing causes relates to their temporal necessities. It is expressed in these words: "What shall we eat, what shall we drink, wherewithal shall we be clothed?"

These bodies of ours and of those dependent upon us—how shall they be provided for? Their wants are so many and so constant; the income is so slender and so uncertain; there is so little bread for a rainy day or for the time of old age. Shall we not come to actual want?

Here is the promise—it is only one of many relating to the same thing: "The young lions do lack and suffer hunger, but they that trust in the Lord shall not want any good thing." That promise has been the only bank account of many a widow and aged one, and has never failed. God's care and support are as constant as your need.

Your Heavenly Father knows that you have need of all these things. Put yourself in his care. Lean back upon his promise. If you pass through the wilderness go out each day to gather the manna which rains from the clouds. It will come some way, from somewhere. Not in armfuls or basketfuls, perhaps, but in daily rations. Sufficient unto the day is the provision thereof. Not in dainties and luxuries, but in plain, substantial, healthful diet. It is ours to plan and execute the best we know how; it is God's to do the rest.

Look to God's Promise.

The second cause for worry relates to the providences of life. So many things occur that are, oh! so hard to bear. Hard-earned money is completely lost. A fair reputation is ruthlessly assailed. One dearly beloved is taken away and the heart is desolate and lonely. Sickness enters the home, and weeks and months are spent watching solicitously by the bedside of one whose life is, so recently in its flow, is slowly ebbing away.

BIGGEST FLOOD EVER RECORDED

The Mississippi and Ohio Pass All Former Marks.

ENORMOUS DAMAGE REPORTED

With Towns All Along Line of High Water Inundated by Flood Waters Bursting Levees, Streams Are Still Rising and the Most Disastrous Overflow in the History of the Mississippi Valley Is Being Predicted.

St. Louis, April 3.—The Mississippi and Ohio rivers at their confluence have reached the highest mark in their greatest flood danger in history. Reports show Hickman, Ky., under twenty feet of water and 3,000 persons without shelter; broken levees at Commerce, in Scott county, Missouri, Birds Mill, back of Birds Point, Mo.; the entire town of McClure, Ill., under water; New Madrid, Mo., swept away by waters from the Mississippi, and a portion of the city of Memphis itself under six feet of water.

Confirmatory of this fear comes a report from Kansas City, Mo., stating the crest of the flood is passing a foot above the danger mark, which means that the Mississippi will be swollen still further. The Wabash, Illinois and Missouri are also above the flood stages.

The breaking of the river levee at Hickman, Ky., to some extent relieved the strain at Cairo, Ill., and encouraged citizens to hope that the worst is over. Work of building up the levees was renewed with fresh vigor. Half the women of the town have joined in the work of supplying hot coffee and lunches, working day and night in relays, while the men toil on the banks. Panic-stricken citizens have prepared for the worst by moving their household effects to upper stories.

Indiana Village Surrounded.

Mt. Vernon, Ind., reports the village of New Haven, west of there, completely surrounded by water from the Little Wabash river. People are living four and five families in a house in order to shelter homeless farmers from the lowlands.

The railroad blockade at Omaha, Neb., that has been in effect several days because of the flood, has been broken and forty-five through trains, east and west-bound, have passed on their way. The railroads have been feeding 5,000 persons free.

Late messages from Nashville, Tenn., state the flood there is testing the levees to the limit, and that breaks may occur at any moment. In the Cumberland valley untold damage followed the greatest flood in its history. A number of deaths due to the flood have been reported in Tennessee. The train bearing the body of Senator Taylor from Washington to Nashville was detained by flood all day in the mountains of Virginia near the Tennessee line.

Passenger trains have been operated with difficulty out of Cairo, Ill. The Big Four is entirely out of business between Cairo and Mound City, Ill., detouring its trains via the Illinois Central.

Ran Into Washout.

Russellville, Ky., April 3.—A Louisville & Nashville passenger train was wrecked by running into a washout near Olmstead. The engine and mail car turned over and the engineer, fireman and mail clerk were injured. None of the passengers was hurt.

ULTIMATE CONSUMER

Has Been Given Better Chance by New Weights and Measures Law.

Albany, N. Y., April 3.—Governor Dix has signed the bill providing that all meat, meat products and butter shall be sold or offered for sale by weight. All other commodities not in containers shall be sold or offered for sale by standard weight, standard measure or numerical count, and such weight, measure or count, shall be marked on a label or a tag attached thereto except that vegetables may be sold by the head or bunch. The net contents of containers must be indicated on the outside.

The bill establishes the standard barrel and prescribes that all commodities within reasonable variations must be marked on the outside of the container to show what is offered for sale within.

MURDERS DUE TO FANATICAL BAND

Colored "Sacrifice Sect" Deliberately Slays Seventeen.

MOST AMAZING CONFESSION

Without Any Evident Appreciation of the Awfulness of Her Bloody Work, Louisiana Negress Calmly Tells the Officers How She Secured the Human Blood Needful For Voodoo Band's Dreadful Ritual.

Lafayette, La., April 3.—Clementine Barnabet, negress under arrest here, has, in a most amazing confession, cleared the mystery that has surrounded the murders of seventeen negroes in western Louisiana and has given clues which are expected to fix the guilt for eighteen others in this state and Texas, which have been charged to the mysterious "ax man."

Calmly and without any evident appreciation of the awfulness of her bloody work, the negress related in detail how she slew each family, the methods she pursued in escaping detection, and the aid she had in carrying out her plans. Yet, while Clementine was willing to tell her own part in these crimes freely, she has evaded every effort of the authorities to learn the other members of the fanatical band who assisted her in some of the crimes she committed and who are believed to be responsible for the other murders at Lake Charles and in Texas.

She declared that she killed the four members of the Randell family, who met death here last November, four members of the Andrus family, who were killed her a year ago last February; five negroes at Rayne, and four negroes at Croatley. The other victims at Lake Charles and in Texas, who were killed since her arrest, were slain in exactly the same manner, and the authorities think that they were the victims of the unnamed members of the band of fanatics that aided her in part of her bloody work.

Throughout the succession of murders the theory of the authorities has been that all of the negroes who have been killed were the victims of one band of fanatics, or of one individual fanatic, and that they were members of the "Church of Sacrifice." This is a mysterious negro sect that is said to believe in the sacrifice of human lives as a means of securing immortality. The theory is in part borne out by the confession of the woman, though the authorities believe that she was driven to her bloody work through the interpretation she placed on the exhortations of some preacher of the "sacrifice sect."

Before engaging in any of these crimes Clementine armed herself with a "voodoo" which she got from a preacher, and which she and other members of her band were assured would protect them from the law.

A peculiar feature of the case is that Raymond Barnabet, her father, was convicted of the murder of the Andrus family, she being the chief witness against him. Raymond was sentenced to be hanged, but has been granted a new trial. She now declares that her father is entirely innocent of the crime.

COLORED EXPOSITION

American Negroes Will Celebrate Emancipation Semi-Centennial.

Washington, April 3.—The senate has passed Senator Root's bill providing for the celebration of the semi-centennial of the emancipation proclamation by an exposition to be held in 1913. The sum of \$250,000 is appropriated for the exposition, to be expended under the direction of the secretary of the treasury.

The semi-centennial emancipation exposition company has been incorporated under the laws of the state of Georgia for the purpose of holding the exposition, which is to be illustrative of the history, progress and present condition of the negroes.

Quick on the Trigger.

Belgrade, April 3.—Colonel Missitch, who was one of the men accused in the assassination of the late king and queen, and who is now a member of parliament and conspicuous in his opposition to the government, shot three persons at a political meeting at Bachova. The colonel was making a political speech and upon being questioned, drew his revolver and fired a number of shots. Instead of arresting him for the shooting, the police smuggled the colonel out of town.

The Pessimistic Señor Diaz.

Madrid, April 3.—King Alfonso granted an audience of half an hour to General Diaz, former president of Mexico. The latter in talks with friends is pessimistic as to the outlook in Mexico. He said: "The world can see now that I was no tyrant, but a severe governor, who realized that an iron hand would alone keep Mexico prosperous and peaceful."

Campa again began shelling the hill, this time more effectively, and a scattering could be seen among the Maderista adherents. Soto's men had taken very little part in the fight, up to that time, as they were located to the south of the town, but Campa sent a detachment to that point to engage them.

FIGHTING IT OUT

Rival Forces in Mexico Contend For Possession of Jimenez.

Jimenez, Mexico, April 3.—Fighting is in progress between the rebel forces under General Campa, composed of 1,000 men with two machine guns and one cannon, and the federal forces under Generals Jose De La Luz Soto and Pancho Villa.

The first shots were fired from the rebel side, and were directly at La Prieta hill, overlooking the city, where 300 of Villa's men were on the lookout.

Villa's men returned the fire and then Campa ordered the shelling of the hill. The shelling was not very effective, however, and Campa ordered two machine guns up to within 1,000 yards of the hill. This caused the defenders to scatter promiscuously.

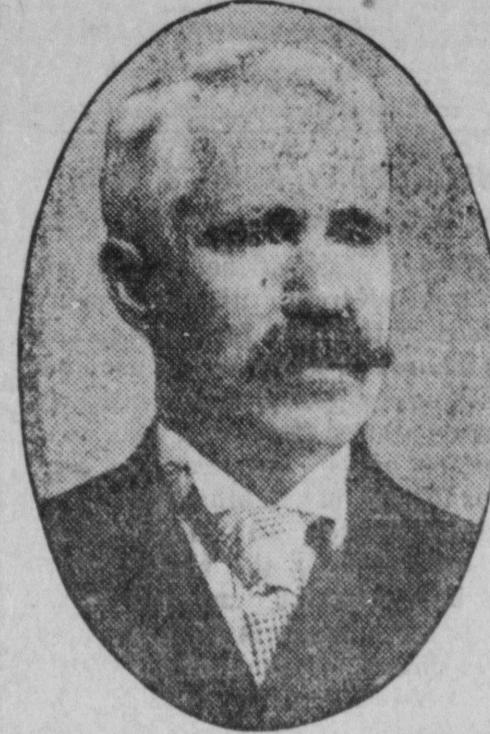

Campa again began shelling the hill, this time more effectively, and a scattering could be seen among the Maderista adherents. Soto's men had taken very little part in the fight, up to that time, as they were located to the south of the town, but Campa sent a detachment to that point to engage them.

Taft Won in Thirteenth.

Warsaw, Ind., April 3.—By a vote of 71 1/2 to 70 1/2, the Taft forces beat the Roosevelt followers in the district convention here and named two more delegates to Taft's list in Indiana.

SEED CORN NOT UP TO STANDARD

Movement to Correct Difficulty Confronting Farmers.

A CORN IMPROVEMENT TRAIN

Trip Over the Lines of the Nickel Plate in Indiana Will Carry Purdue Lecturers Who Will Seek to Impress Upon Farmers the Importance of Giving Great Care to Their Seed Corn This Spring.

Lafayette, Ind., April 3.—The seed corn situation in Indiana is bad, and realizing the need for improved methods, the Nickel Plate railroad has decided to operate a corn improvement lecture train over its lines in Indiana tomorrow and Friday. The object of this train will be to give information on all phases of corn growing, selecting and testing of seed corn, preparation of the seed bed, rotation of crops, fertilization of the ground, cultivation of the crop, etc.

"During the last two weeks trains have been operated over three other lines in Indiana," said Professor G. I. Christie, superintendent of agricultural extension. "It has been found that the seed corn situation is, indeed, a serious one. It is necessary that farmers give the greatest care to their seed corn this spring, in order that good seed may be secured."

Information on how best to do this will be given by the lecturers accompanying the improvement train and in the literature to be distributed.

TO INVESTIGATE VICE

Social Service Commission Created at Terre Haute by City Council.

Terre Haute, Ind., April 3.—The city council has created a social service commission and directed the board of safety to give its members police powers. The commission was created notwithstanding the fact that the committee on public morals, the mayor, the board of safety and the city attorney were opposed to it. The city attorney said the council was not officially authorized by the statutes to create such offices. The board of safety was against the proposition because the city attorney said it was illegal, but it did not take the council long to dispose of the matter.

The social service commission is the result of a meeting of one hundred representative men and women of the city, at which vice conditions were discussed. The commission will make a thorough investigation of vice in Terre Haute.

A NEW GAME

Smooth Stranger Depletes Contractor's Bank Roll by Fake Telegram.

Bedford, Ind., April 3.—A forged telegram and a smooth stranger were responsible for a clever swindling scheme worked on the Citizens National bank of this city, and the American Express company at Borden. The bank received a telegram bearing the signature of J. A. Coleman, a well-known contractor, asking that \$600 be sent to him at Borden. He requested that the money be shipped by the American Express company.

The bank did not hesitate to comply with the request, and wired Mr. Coleman accordingly. The answer was received by the stranger, who had forged Coleman's name to the original telegram, and he was at the express office when the package arrived. He showed the agent the telegram, got the money and disappeared.

Their Plea Prevailed.

Anderson, Ind., April 3.—George Brauner, aged forty-two, and George Edwards, aged thirty-three, strangers, who represented they were recently employed at Indianapolis, have been convicted of petit larceny in this city and sentenced to one to eight years in prison. They pleaded with the court to permit them to submit some references as to their former conduct. Pending such information Judge Bagot is withholding judgment on the sentences.

Enters on Life Sentence.

Muncie, Ind., April 3.—Charles McGaillard of this city, recently convicted of the murder of Alta Hayworth, his sweetheart, has been taken to the penitentiary at Michigan City to begin his sentence. A life term was given him and a motion for a new trial was overruled. He confessed to the crime.

Victim of Mysterious Assault.

Laporte, Ind., April 3.—Fighting for life, John Flynn lies in a hospital here a victim of a mysterious attack. Flynn was found unconscious in the street with both sides of his lower jaws broken and his left eye mutilated. The police are investigating. Flynn cannot explain the attack.

Killed by Traction Car.

Evanston, Ind., April 3.—Joseph Bradley, aged thirty, was struck by a passenger car on the Evansville & Rockport traction line, near Rockport, and instantly killed. He had evidently fallen in a stupor on the tracks. The body was badly mutilated.

CHARLES P. NEILL.

United States Commissioner of Labor Watches the Coal Situation.

MINERS WILL INSIST ON UNION'S DEMANDS

Recognition the Principal Bone of Contention

Wilkesbarre, Pa., April 3.—The companies will offer an increase of wages, it is said, when the coal miners and operators meet in Philadelphia April 10 to further continue their deliberations. They will make a flat offer of 10 per cent, which will mean that they want and will insist on the abolition of the sliding scale. This would mean a net increase to the men of about 6 per cent. This will be as much as the companies will offer and will be all the men can hope to get without a strike.

Determination of the miners in the anthracite fields to stand for recognition of the union was forcibly demonstrated at a mass meeting of 3,000 men at Nanticoke. These men, who received the name of President Baer of the operators with catcalls and hoots, were plainly asked by William Baxter, national organizer of Iowa, whether they wanted to accept a 10 per cent increase in wages and return to their work without a strike. Scarcely had the words left his lips before the 3,000 men as one mighty chorus sang out: "We don't want any increase; we want recognition of the union."

S.S.S. THE CURE FOR SCROFULA

The usual symptoms of Scrofula are enlarged glands of the neck, sores and ulcers on the body, skin affections, catarrhal troubles, weak eyes, and general poor health. The inherited poison, transmitted through the blood, pollutes and weakens this fluid, and in place of its nutritive qualities fills the circulation with scrofulous matter, which saps the vitality of the entire system. Thousands of children, born with a scrofulous taint, have spent their childhood in constant physical suffering, and grown to manhood or womanhood handicapped by ill health and stunted growth, and perhaps later some disease of the bones or joints developed. S.S.S., given in their early life, would have prevented this. It would have cleansed and purified the blood of the taint, nourished and strengthened their systems, and assisted each to grow into strong, healthful manhood or womanhood. S.S.S. is the very best remedy for Scrofula. It goes down to the bottom of the trouble, and cleanses the circulation of all scrofulous matter. It supplies the weak, diseased blood with strength and health-building qualities, and under the purifying effects of this great remedy all symptoms of Scrofula pass away. S.S.S. contains no minerals in any form, and is an absolutely safe treatment for children, even infants, or persons of any age. Literature about Scrofula and any medical advice free.
